Michael Antony Austin is a natural performer with a strong, emotive tenor voice. On stage since his early teens, Michael has built an impressive musical CV with various bands, projects and as a solo artist, with hundreds of LIVE shows all over the world from Estonia, Latvia and Luxembourg to Germany and the USA..... And since the beginning of this year also in the Netherlands. As a singer/songwriter, Michael has released four albums of deeply personal, accessible, country-flavoured pop, rock and folk.

Release of "Turn Around and Kiss Me" in the Netherlands

His second single "Turn Around And Kiss Me" is a follow up to his Dutch debut "The Collier Lad's Dream" and will be released on May 12th, 2023. Both tracks are taken from Michael's current album "It's Not The Years... It's The Mileage". "Turn Around and Kiss Me" is a beautiful power ballad in the style of artists such as Bryan Adams and Aerosmith. One of the more personal songs on the album, because it's partly biographical – albeit with plenty of poetic license!

References

"There are two qualities (amongst many) that stand out to me about Michael's voice: firstly his fearless approach to the difficulties of the music, whether he is singing Queen - where the highs and lows are no barrier, or his own compositions. The second is the clarity of his voice. His careful use of vibrato adds to the emotional sense of the music and you can hear every word clearly."

- Peter Freestone (Freddie Mercury's Personal Assistant)

"In a world full of auto-tuned bots... it's so good to hear a proper singer - such a rarity these days!"

- John Young (Lifesigns, Asia, Bonnie Tyler)

"I've listened to Michael's voice for countless hours over the last 15+ years, producing, recording (and) mixing dozens of songs with him. It never ceases to amaze me. He sings bone-crushing Metal, the most heartbreaking ballads and everything in between with the same passion and without losing his uniqueness. An outstanding singer, a gifted songwriter, a great person and an even greater friend."

- Andy Brings (Rock Musician, Producer, TV Celebrity)

"It's great to see and hear another North East (UK) talent making his mark in music. Stick the album (It's Not The Years... It's The Mileage") on and let it carry you away..."

- Dave Johns (I, Daniel Blake, Award winning actor, writer and comedian)
